## The Ghostwriter: A Model For Every Need

**T**he Ghostwriter is the nation's premier autopen machine, and the T Series is our current line of manual feed machines. With four different configurations to choose from, this workhorse will sign all day long and never get writer's cramp while providing state-of-the-art signature reproduction on all your letters, certificates, diplomas, photographs, cards...the list is endless.

**T**he Ghostwriter uses just about any writing instrument - ballpoint, felt-tip, permanent markers, fountain pens, calligraphy pens, pencils...even crayons - and signs or writes on a variety of sizes and thickness of materials. Each machine features auto-rewrite, adjustable pen pressure, speed adjustment and a 6 and 1/2-inch by 4-inch signing production area. With a footprint that is 18 by 18 inches and weighing only 15 pounds, the Ghostwriter is small enough to be placed on a table for convenient use or put on a shelf for easy storage

**T**he Ghostwriter signature machine is the ONLY digital autopen that is made in the USA, and can be configured for both your functional and budget needs. There's really no need to look anywhere else...so give us a call at 1-800-636-4450 and order your Ghostwriter today!
